THE MARION DAILY STAR.

VOL. XIV. NO. 99 MARION, OHIO, TUESDAY, MARCH 17, 1891 PRICE 3 CENTS

AFTER THE LYNCHING

Effect of the Mob Violence at New Orleans.

SERIOUS TROUBLE FEARED.

The Italian Government Will Demand Redress in Some Form or Other—Indignation Meetings Held in Number of Different Cities.

WASHINGTON, March 17.—Dr. T. S. Verdi, of this city, a well known Italian who has been a resident of the United States for forty years, says in connection with the New Orleans lynchings: "I do not defend the men who were killed. They were probably a bad lot and may have been guilty of the murder of Chief Hennessy, but that is not the question. They were cleared under the operation of one of the institutions of civilization, and because they were cleared the people of New Orleans, Americans who glory in civilization, return to one of the worst forms of barbarism. If this angry uprising had occurred at the time of the assassination of Chief Hennessy, there might have been some excuse for it. But four months had elapsed, a trial was had and a verdict rendered. If the people will not abide by the operations of the law as provided, what use is there in courts of justice?

"I was sorry to notice that The Esecutivi had issued the manifesto it did. No good will come of agitating the matter. It is extremely dangerous to do so. There is, in my opinion, more back of this murder than appears on the surface. The objection to Italian immigration from certain classes of our European ports who may have been in this country a few years longer is significant and raises a grave question that the government may have to deal with."

"This unpleasantness will give Mr. Blaine a chance to display his diplomatic ability, and let us hope the trouble will not be decided on the 'reciprocity plan,' if it is, indeed, a very inopportune time for a diplomatic battle, as the abrogation of friendly relations between Italy and the United States will undoubtedly restrain the latter country from taking part in the world's Columbia fair. The most cautious diplomatic tactics are now necessary on both sides, and Italy will act with measured countenance and dignity toward the United States."

In his communication to the Italian government Mr. Blaine also informed it that the president had charged the governor of Louisiana to take effective measures to guard the Italian population of the city of New Orleans from further violence and to use every effort to bring the assassins to justice.

The president also informed the chamber that United States Minister Porter had called upon him to convey the assurance of his government's regret, and to say that he trusted that as a result of explanations the friendly relations existing between Italy and America will be drawn even closer.

When the premier had concluded his statement Deputy Bregan said that a note would be taken of the minister's statement. Deputy Ferras urged that the government demand from the United States communities for the families of the victims of the New Orleans mob.

THE ITALIAN GOVERNMENT.

What It Proposes to Do About the Lynching in New Orleans.

LONDON, March 17.—A dispatch from Rome says that the government will take no further action in response to the massacre of Italian subjects at New Orleans, until word has been received from the American government as to its course. The popular feeling on the subject in Rome and other cities has not abated, and the demand for action is loud and imperative. The news had the effect, for the time, of stemming the current of partisan animosity, which has been running very high, both in the chamber of deputies and outside, and all parties appear united, for the time being, in indignation against America. This is considered, the dispatch says, a disquieting symptom, as the Rudini cabinet may go any length to please the popular sentiment.

It is stated that orders were given yesterday to suspend the directions previously given for diminishing the active force of the navy. The baron di Brocchetti, naval attache at Paris, says that the Italian navy is now one of the finest in the world, and could easily block entrance to the Mediterranean to any power except France or England, while sending swift sailing cruisers to every ocean to prey on the commerce of an enemy. As to the Italian commerce, it is largely confined to the Mediterranean. The baron has shown the deep interest he feels in the naval appropriations by a fine presentation to Hon. Benjamin Odoardi, a Polish member of the reichstag, who in the naval committee zealously and unsuccessfully advocated the grant of the first instalments for the three large new ironclads demanded by the government. The baron's gift is a splendid picture representing the fleet of the great victor in the first Holland-Venetian enterprises. The dedication reads: "To Hon. Odoardi, in remembrance of his manly attitude in favor of my navy, by his grateful emperor and king."

In the chamber of deputies yesterday Marquis Di Rudini, the Italian prime minister, made a statement with regard to the killing in New Orleans, on saturday last, of Italian prisoners, who had been acquitted on the charge of having been one of the band of murderers, if that duty [illegible] the Italian government had asked [illegible] of the affair and had [illegible] communication with the American [illegible] ment through the Italian minister at Washington. Baron Fava, on receiving [illegible] instructions [illegible] Secretary of State Blaine, the assurance that President Harrison recognized the right of Italian residents in the United States to protection of the government and laws of that country. This assurance was accompanied by an expression of the profound regret felt by the President for the unfortunate occurrence.

The Star yesterday evening said, "The impressive feature of the New Orleans affair was the perfect tranquillity maintained throughout the proceeding. The champions of law and order stand against at such proceedings. The American [illegible] as to what [illegible]

A letter has been written to The Pall Mall Gazette by Archibald Crewen, a son-in-law of the late Reverend Crewe, in which that gentleman defends the action of the citizens of New Orleans as a "straightening out of the Italian question once for all," and he adds that he "leaves it to the old women of both sexes to moralize over the so-called excesses of the blood-stained populace," etc. The writer also commends the action of "the men of Louisiana, who are not spoiled by the spirit of submission to the letter of the law, which has done so much to emasculate the human race."

The Pall Mall Gazette replying to Mr. Frewen's letter, criticises it generally, but holds that Englishmen should not lift their hands in righteous horror and adds: "One branch of the Anglo-Saxon race does not differ from the other in this matter. The citizens of New Orleans, finding that the jury did not do its duty, said, we must by one means or another put crime down."

The St. James Gazette, continuing its comments on the affair, says: "The incident shows that native Americans have not lost the quality of stern resolution which is sometimes dissolved by a life of comfort and luxury in modern society. The men who organized this defiance of formal justice are not ashamed of what they have done. They have defeated a society of foreign ruffians who were trying to terrorize a whole city. It is doubtful if John Bull has enough grit left in him to protest in as emphatic a manner as the citizens of New Orleans have protested.

AT NEW ORLEANS.

The City Quiet After the Lynching of the Italians.

NEW ORLEANS, March 17.—There is not the least bit of excitement in the city, matters having resumed the usual routine. Business is going on as usual and a stranger could not guess by outward signs that New Orleans had been the scene of a tragedy which startled the world.

In Father Manoritta's statement he said that he was sure that the letter that he received was from the Provenzano faction of the Mafia. This statement Mr. Joseph Provenzano yesterday morning most emphatically denied. He said his first impulse was to have Father Manoritta arrested and he consulted Chief Glaseria regarding the matter, and was advised to make a public statement concerning the matter as the chief thought it would do more good.

Provenzano says that he has not been connected with the affair in any manner. On the contrary he has been an object of their enmity. "About five years ago," said Provenzano, "the Mafia sent me several letters threatening to kill me and my brother, unless we gave the society $1,000. We did not respond, and Jim Caruso shortly afterwards came to me and said that he belonged to the society, and that we had better pay the money. He said that I could do so by going to the old place and bandaging my head with a red handkerchief and leaving the money on a stump in the swamp near by. I was then to go about my business and they would get the money. I then went to some of my friends, whom I met under the St. Charles hotel, Jung Davy, Pat. Meall and Ralph Morgan being the number, and they said not to pay it; that they would go with me in a wagon to see who was there to receive it. Jim Caruso, who was along, said that this would not do. 'If you go with a crowd,' said he, 'no one will appear.' I then dropped the matter and told Caruso I have nothing more to do with the society, to give up his fruit stand in the French market and come on the levee and we would make him a free man. He said he would do so, as he was tired of the Mafia, having recently been selected on a committee to kill some one."

A clerk in the office of the registrar of voters, said yesterday afternoon that he had examined the registration books for the purpose of ascertaining the allegiance of the men executed by the people on Saturday, and that he found that every one of them was a registered voter of the city of New Orleans.

The flight of Foreman Seligman, of the jury, is looked upon with suspicion by the public, and it is put down as proof of guilt. It has been ascertained that the whole jury was not bought, but that the majority of them were recipients of money from the nine defendants. Mr. Markey, one of the jurors, and the only one who has called for an investigation, says that five of the jury acted suspiciously, and six of the twelve, he among the number, stood out for the conviction of Scaffidi and Monasterio, and finding that the others would not agree with them, a mistrial was agreed on as to these three.

Governor Nicholls sent an answer to Secretary Blaine last night. He refused to make it public until notified that the secretary had received it. The grand jury will further examine into the alleged bribery of jurors. Thomas McChristal, who was indicted a few days ago, was taken from prison to the district attorney's office yesterday and was closeted with that official for some time. It is generally believed that the [illegible] has made a confession in the matter, but the officials decline to talk for publication. Business with the prisoners.

No Mafia in Buffalo.

BUFFALO, March 17.—The massacre of the seven Italians at New Orleans on Saturday has created considerable interest among the Italians of this city. A mass meeting of the Italian residents of Buffalo has been called for on Thursday night. The Italian colony numbers about 1,000 people and nearly all are residents of the city and are naturalized citizens.

Mr. A. J. Cisbell, a prominent Italian attorney, said yesterday evening: "The Sicilians are not Italians, they are Sicilians and are only governed by Italy by right of conquest. There is not a single Mafia in Buffalo or in the penitentiary and there is a forfeit of $1,500 up now for the production of one such man in our midst."

A Bitter Feeling Existing.

KANSAS CITY, March 17.—There is a bitter feeling of denunciation among the Italian residents of this city over Saturday's tragedy at New Orleans. They gathered in groups all day and freely discussed the matter. They are a unit in demanding that the Italian government take immediate cognizance of the affair and the American government be made to make suitable reparation.

In Omaha.

OMAHA, March 17.—A meeting of the leading Italians of this city was held yesterday and resolutions were passed condemning the lynching at New Orleans. Manettie Guiseppi, president of the society, emphatically declared that [illegible] did not indorse the [illegible] deprecated mob violence. The Mafia, however, has sympathizers in Omaha. After the murder of Chief of Police Hennessy appeals were sent out by the accused men for aid from their countrymen everywhere. Omaha Italians responded liberally, and only a week ago $500 was sent from this city to the accused. The participants in yesterday's meeting deny all knowledge of this and allege that they furnished no part of the contribution.

Newspaper Comments.

SAN FRANCISCO, March 17.—The Chronicle commenting on the New Orleans tragedy, says: "Although lynch law is always to be deplored, if vigilant vengeance was ever defensible it certainly was in the case of the people of New Orleans.

The Call says it may be that these Sicilians should have been found guilty, but the facts ought to have been clearly established and "leading citizens" would be justified in taking the law into their own hands.

The Examiner says the massacre cannot be defended in cold blood. Every man accused of crimes has a right to legal trial, but this right is reduced to mockery if that trial must have only one result.

In New York.

NEW YORK, March 17.—L'Eco D'Italia published a telegram from Palermo, Sicily, which states that there was great indignation in that city over the New Orleans tragedy. The American citizens have migrated to the south of France fearing violence at the hands of the populace. "If Italian citizens of America as a friendly nation, but the ghosts of Garibaldi, it says, should be none the less firm.

Telegrams expressive of indignation of the Italian colonies throughout America continue to be received at the office of Il Progresso in this city. A dispatch to the same paper from New Orleans says that the colony there is calm, and that its members are grateful for the sympathy of sister colonies.

Protest from Pittsburg.

PITTSBURG, March 17.—Steps were taken last night to arrange a mass meeting to denounce and protest in the name of 12,000 Italians residing in Pittsburg, Allegheny county and neighboring industrial towns against the massacre of their countrymen in New Orleans. A committee was appointed to secure a hall, engage speakers, raise money to defray the expense of the meeting and to name the date of meeting.

Mass Meeting in Wisconsin.

MILWAUKEE, March 17.—There are about 500 Italians in this city, and at several important gatherings the New Orleans murderers were denounced. Telegrams were sent to Washington and to New York demanding that immediate action be taken to secure reparation.

Crying for Blood.

CHICAGO, March 17.—A special to The Post from Detroit says: Detroit's Mafia, who numbers 400 members, will hold a meeting Tuesday to take steps to have the New Orleans murders avenged. The local Mafia is crying for blood.

Sent Up for Swindling.

NEW YORK, March 17.—Charles C. Hearne, director general of the Dorcas Publishing company, was yesterday sentenced to seven years and seven months' imprisonment for swindling Patrick J. Coen, a new arrived Irishman, out of $500, on the pretext of giving him stock in the company which Hearne was the head of.

Row at a Negro Dance.

ST. LOUIS, March 17.—A dispatch from Houston, Tex., says that while Officer James L. Tean was attempting to arrest two negroes in a dance house for carrying concealed weapons, he was shot and instantly killed and a bystander named Frank Michaels was mortally wounded. The negroes escaped.

Accused of a Serious Charge.

UTICA, N. Y., March 17.—Ames L. Eddick, aged 60, a prominent citizen and a former supervisor, was yesterday arrested charged with rape on the bodies of six girls whose ages ranged from 11 to 15 years. He pleaded not guilty and was remanded for examination.

[illegible]

NEW ORLEANS, March 17.—A crevasse occurred at [illegible] yesterday morning in the Layon Lafourche levee and submerged [illegible] of the Whites plantation. Heavy weather continues.

VESSELS WRECKED.

Three Steamers Ashore Off Martha's Vineyard.

GALENA, NINA AND THE TRIANA.

The Greatest Ocean Disaster That Has Occurred Since the Hurricane at Samoa. Various Other Dispatches From Washington.

WASHINGTON, March 17.—Not since the Samoan disaster has such damage been caused to the American navy as that of Saturday and Sunday. Three vessels are now ashore along the coast of Martha Vineyard—the Galena, the Nina, and the Triana. The latter vessel, the navy department is informed, went ashore off Cuttyhunk Sunday. She is in a very dangerous position and if the weather continues rough may become a total loss. The Triana left Newport Sunday morning to render assistance to the Nina and the Galena.

A dispatch from Lieutenant Commander Bicknell, in command of the Galena at the time she went ashore, to the navy department states that the Galena lost her rudder post and part of her keel. He expresses the hope that the Nina would be saved if the weather was favorable. No mention was made of saving the Galena, and at the navy department she is regarded as totally lost.

The Galena at the time of the disaster was being towed to the Portsmouth, N. H., navy yard for repairs. Her old engines had been taken out and her new engines were upon the upper deck, and were to have been placed in position at the Portsmouth navy yard. The engines cost $70,000. The Galena was a third rate vessel of 1,900 tons, and cost the United States in building and repairs put upon her nearly $1,000,000.

The Nina is a tug of 357 tons and the Triana a tug of 450 tons burden.

Tow boats have been ordered from Vineyard Haven, New Bedford and Woodshall to the assistance of the three vessels.

A court of inquiry will be ordered within a few days to determine the responsibility for these series of naval disasters.

Kincaid Case in Court.

WASHINGTON, March 17.—The trial of Charles E. Kincaid for shooting Representative Taulbee, of Kentucky, was set down for yesterday in the criminal court. When the case was called, counsel for the defense asked for a continuance owing to the absence of material witnesses. The court granted a postponement until 1 o'clock in the afternoon to enable the defense to prepare affidavits in favor of postponement. Later in the day court adjourned until to-day when the affidavits will be presented and further action taken on a motion to postpone for a week.

A Large Claim.

WASHINGTON, March 17.—Fifth Auditor Halbercom, of the treasury department, yesterday passed favorably upon the claim of New York state for the refund of about $2,500,000, the largest claim ever audited in that bureau, the amount of direct taxes due the state under the terms of the new law. The claim now goes to the first comptroller of the treasury and then to the secretary for his signature, and the issuance of a warrant for the amount.

Congressman Owens' Wife Ill.

WASHINGTON, March 17.—The condition of Mrs. Owens, wife of Congressman Owens of Indiana, is reported as being extremely critical. Congressman Owens telegraphed yesterday afternoon to Mrs. Owens son to the effect that if there was no change for the better in her condition she could not live an hour.

Society Broken Up in Frankfort.

SAN FRANCISCO, March 17.—About a dozen years ago a Mafia society flourished in San Francisco. Members of the gang terrorized their countrymen and others exactly as the Chinese highbinders have been doing more recently. They robbed and murdered and had the entire Italian community in a state of terror. At length a robbery was committed which led to the arrest of half a dozen men, and one named Meli, was convicted and sent to state's prison for six years. Three others were sentenced for shorter terms. Meli, after serving his term, was arrested for a murder he had committed in Sicily. This broke the society in this city.

Fugitive from Justice.

BALTIMORE, March 17.—A special to The American from Cumberland, Md., says: A young man giving his name as Crouse, came here recently and secured employment. Last Friday he was found to be seriously ill, and at his request a minister was called. To him Crouse confessed that his name was Hiram Fleckensmeyer, and that he was a fugitive from justice from Ohio. He said he had lived in Dayton, but would not designate nor locate his crime. He died yesterday. No further information has been elicited by telegrams sent to Dayton.

Girls Rescued from Drowning.

ROANOKE, Va., March 17.—The westbound train on the Norfolk and Western struck Miss Lulu and Lena Copenhaver yesterday morning on a trestle near Coyners Springs, five miles from this city, instantly killing Celia and injuring Lulu so that she died yesterday evening. The girls were walking on the track with the wind in their faces when the train dashed around a sharp curve and was on them before they could get off the tracks.

[illegible]

CHICAGO, March 17.—Frank L. Frayne, the well-known actor, who has been ill at the Clarendon hotel for the past three weeks, died last night of neuralgia of the heart. The deceased was 37 years old.

VILLAGE DESTROYED BY FIRE.

Highland, New York, Almost Wiped Out of Existence.

HIGHLAND, N. Y., March 17.—The entire business portion of this village is being destroyed by fire, which started in Morris Daly's grocery. Upright's hotel, the postoffice, the town hall, S. G. Carpenter's law office, Decker's livery stable, W. W. Bulis general store, George Saxon's general store, Rose & Clearwater's store, Wilcox's store, Odd Fellows' hall and Ira Calway's wagon shop have been burned and other buildings are on fire.

Clarence Ellis, 8 years old, living in a tenement house, was burned to death. A fire engine and hose carriage have arrived from Pokeepsie. The loss will not be less than $100,000.

Town Destroyed by Fire.

DETROIT, March 17.—The town of Fowlerville was literally wiped off the face of the earth by a fire last night. The high wind, combined with the inadequate facilities for fighting the flames, resulted in the town's destruction. The loss is estimated at $300,000.

Big Lockout of Plumbers.

ST. PAUL, Minn., March 17.—The journeymen plumbers of St. Paul, 1,200 in number, were locked out Monday morning on an order issued by the master plumbers. This action is in retaliation for a boycott begun by the journeymen on a boss plumber who employed a cornice maker to do plumbing. The fight will be a bitter one, as the employers are determined to break up the local journeymen's union.

Insane People Burned to Death.

NASHVILLE, March 17.—One hundred and twenty-five patients will be removed from the burned insane asylum here today to the west Tennessee asylum at Bolivar. A special train will carry the party. A corrected list of the dead now shows that ten lives were lost, all of them hopelessly insane. Several bodies have been removed, but none of them were recognizable.

Missing Passenger Steamer Heard From.

NEW YORK, March 17.—A cablegram from Lisbon says: "The steamer Augusta Victoria, of the Hamburg-American line, with the Orient excursion party on board, arrived here from Naples, Saturday, and left Sunday night for Southampton."

Fell from a Carriage.

EXETER, N. H., March 17.—The coroner yesterday decided that James H. Marston, who was found dead yesterday morning by the roadside came to his death by a fall from his carriage and exposure, and was afterwards robbed by D. C. McKenzie, a boon companion.

The Weather.

Fair weather; warmer; variable winds, becoming east or ely.

ABSOLUTELY PURE

OHIO LEGISLATURE.

Proceedings of Both Branches of the General Assembly.

CINCINNATI'S CHARTER BILL.

It is the Absorbing Measure Before the Ohio Legislature—Prospects of Its Passage—Other News of Interest to the Buckeye Readers.

COLUMBUS, O., March 17.—The absorbing theme in political circles is the fate of the Cincinnati charter bill. The Hamilton county delegation have returned from their Sunday visit, and there is a marked change. With one exception all of the Cincinnati members are opposed to the bill in its present form, and unless it is amended so as to keep the board of public improvements in existence it is doubtful whether it will pass.

The object is to keep Mr. Reemelin and others in power and the indications are that at the legislative conflict which prevailed during the special session will be renewed. The opposition is not confined to Hamilton county men, but includes members from different parts of the state and all the anti-Campbell factions prominent at the special session. It is thought that if Governor Campbell desires it the bill can be passed.

Senator Morrison introduced a bill requiring surety companies to deposit $20,000 guarantee fund with the state insurance commissioner.

Speaker Hysell received a letter from representative Shearer, of Union county, stating that he had slipped on the icy pavement on Saturday, and received serious injuries.

Senator Gaumer introduced joint resolution to adjourn April 6.

The Rawlings fact bill, with amendments, was returned from the senate. Mr. Rawlings and others are opposed to the Adams amendment and in case the senate refuses to recede the house will ask for a conference committee twice the size of the usual committee.

Mr. Pennell, of Crown county, introduced a bill in the house making an important amendment to the compulsory educational law. The bill adds to Section 10 of the law, which compels the truant officer to report to the poor authorities cases where children under the age of 14 are partially or wholly dependent upon their own labor for a living, and that the board of education shall provide clothing for indigent children.

Mr. Queary's Case Undecided.

CLEVELAND, O., March 17.—The ecclesiastical jury in the trial of the Rev. Howard MacQueary met in this city yesterday. Two sessions of the court were held, but no final agreement was reached, and the court adjourned. It is said that of the five ministers on the jury three find MacQueary guilty of heresy and two dissent. The members are not quite satisfied as to the punishment. The verdict will be handed to Bishop Leonard to-morrow and will then be made public.

Closing Down.

FINDLAY, O., March 17.—At the meeting of the Western Flint Bottle association yesterday, at which thirty-four out of thirty-seven factories in this part of the country were represented, it was decided to close down June 1 instead of July 1 as heretofore, and to remain inactive three months instead of two. This is for the purpose of maintaining prices and defeating the efforts of the western jobbers, who, it is said, have hostile designs against the association.

Domestic Troubles.

COSHOCTON, O., March 17.—James Cheney, Jr., attempted suicide and tried to murder his wife. The cause of the tragedy was domestic troubles. His wife applied for a divorce Friday and left him and went to live with Mrs. Maylor. Cheney called at the house and wanted her to live with him, and upon her refusal he drew a razor and cut his throat from ear to ear. His wife started for help, but he grabbed her and threw her down, cutting her throat seriously.

School Teacher Badly Used Up.

CLEVELAND, O., March 17.—Noah Young and his three sons started after school teacher L. A. Allen's scalp at Eno, a small town near Springfield yesterday. They dragged Allen out, knocked him down with a billy and then nearly kicked him to death because, as they alleged, he punished Young's smallest son with undue severity. No arrests have as yet been made.

Assaulted By Highwaymen.

LIMA, O., March 17.—J. H. Bell, living on West Wayne street, was assaulted by highwaymen and dangerously wounded, but they were frightened away before they secured anything valuable. He was hit in the head with some blunt instrument producing an ugly wound.

Union Printers' Strike.

AKRON, O., March 17.—Twenty-five compositors in the Beacon and Republican job room and news room struck yesterday because the foremanship of the job department was given to a non-union man.

A DESPERATE TRAMP.

He Was Refused Shelter in Muncie Jail, But Gets There.

MUNCIE, Ind., March 17.—Last night John Brooks, a tramp from Franklin county, met Sheriff Swain and asked for shelter in jail, and when refused he deliberately kicked in a fine plate glass at Hoover's cigar store, in the Opera block, saying he would make them take him.

The officers then took charge of him, but offered to permit a crowd of citizens to blacksnake him out of town. He said if they did he would return and burn down the town, as he had no relatives, could get no work, and would not freeze. The officials, much puzzled, jailed him.

THE GREAT COKE STRIKE.

After Six Weeks' Struggle the Leaders Acknowledge Defeat.

SCOTTDALE, Pa., March 17.—The great strike of the 15,000 coke workers of the Connellsville region has entered upon its sixth week. While the leaders of the United Mine workers will not say so publicly, they privately admit that the men have been defeated. The wages lost thus far have been over $.00,000, and within a few days will pass the $1,000,000 mark. The iron market is not sufficiently healthy to make the demand for coke pressing.

Acquitted.

SCOTTDALE, Pa., March 17.—The cases against Alexander Fisher and Lawrence Kline, charged with riotand and assault on Pit Boss Thomas Louden and Mike Belli at the Paul works of W. J. Rainey on Feb. 25, were tried yesterday. The offenses were alleged to have been committed during the riotous proceedings there when a big body of strikers marched down to stop the men from working at Rainey's. The men were both acquitted, but were required to pay the costs. Harry Dilligatti, an Italian, was convicted of assault and shooting with intent to murder Joseph and Thomas Louden on the day of the rioting. The other cases were postponed.

Resorting to Armed Forces.

TORONTO, Ont., March 17.—The Ottawa correspondent of The World says he hears that the government is being urged to ask Lord Salisbury to station in Canada five to ten British regiments, quartering them at Halifax, Quebec, Montreal, Toronto, Winnipeg and Vancouver. "It is argued," says the correspondent, "that the presence of these regiments in Canada would do more to put down the annexation gang and put a check to their conspiracy than anything else."

Terrific Explosion.

CAIRO, March 17.—One hundred dervishes have been killed by an explosion at the Omdurman arsenal. Immense stores of ammunition were destroyed, the arsenal badly shattered, and the buildings in the vicinity severely shaken up.

[illegible]

WILLIAMSPORT, Pa., March 17.—F. R. Weed & Company's bank closed its doors Monday. Assets and liabilities not known.

The Best Result.

Every ingredient employed in producing Hood's Sarsaparilla is strictly pure, and is the best of its kind it is possible to buy. All the roots and herbs are carefully selected, personally examined, and only the best retained. So that from the time of purchase until Hood's Sarsaparilla is prepared, everything is carefully watched with a view to attaining the best result. Why don't you try it?

How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED.

As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I have never seen anything else, and have never been disappointed in its effect, and it seems to be almost a specific cure for all diseases of the stomach and bowels.

W. J. McKinney, Macon, Ga.

TUESDAY, - - - MARCH 17.

THERE will be additional local news found on third page today.

SUGAR is to be cheaper April 1st. This is one of the April fool jokes on the fellows who have wept so copiously over the McKinley bill.

ARE the citizens who are loudest in complaints against the administration of municipal affairs giving proper attention to the preliminary talk that makes candidates? There is the place to begin reform.

PERHAPS the New Orleans tragedy will urge along the much needed reform to the prevailing jury system. As the Commercial Gazette remarks, "as an instrument of justice it is too often a hideous mockery."

AFTER the county commissioners encourage a military company at Prospect it is hoped they will encourage a training school for the county commissioners. It might work wonders, except in instances where the students are too ignorant to improve.

THE new national home for printers is to be located at Colorado Springs, Col., and the work of construction is to begin at once. That is a long distance for the eastern members of the craft to walk, but the old time print has a long experience in making great distances, and he will get there. The distances will be covered by "quarters."

IT may be doubted if Gov. Campbell is happy. The Cincinnati gang is after his scalp and seem bent on making the governor a heap of annoyance, if they don't knock him out. But the governor has the Seneca beauty, Norton, safe, and the pretty doctor is expected to carefully look after fences and draw the salary of two offices, all at one time.

THREE weeks from today we shall know the results of the spring election. In the meantime we shall experience a great deal of hustling, note a superfluous amount of blowing and a distressing amount of lying. There will also be free distribution of pledges that are never intended to be redeemed, and all the other features of a local contest. It is a rare thing for all city officers to change in one year, so an unusual canvass is expected.

IF the New Orleans case of outraged justice fearfully and unlawfully righted serves to call attention to the further restrictions needed against immigration, it will be two-fold in its good results. Today, more than ever before, are the Americans seeing the need of restrictions that restrict against the undesirable portion of the foreign element that is pouring a constant stream into this country. Prompt and effective measures are now needed to preserve the idenity of American institutions and American cities.

Cigar Ashes Good for Heartburn.

A gentleman, who is a very heavy smoker, did a peculiar thing in my presence the other day. He knocked off a portion of the white ash at the end of his weed into his hand and without more ado swallowed it. I naturally asked the reason for this remarkable performance, and, to my surprise, learned that it is a sure cure for the heartburn which sometimes overtakes the devotees of tobacco. Not being afflicted in that way, I did not care to try the remedy, but hasten to communicate it to my fellow smokers. My informant was at one time engaged in the cigar importing business, and was accustomed to test cigars by the score. He informs me that he learned the curious fact in question in Cuba, where the remedy is habitually used by the Dons, who breathe as much tobacco smoke as they do air.—New York Star.

Cleaning Colored Woolens.

Four ounces of white castile soap, four ounces of ammonia, two ounces of alcohol and two ounces of glycerine. Shave the soap in one quart of water over the fire. When dissolved add four quarts of rain water, and when nearly cold the other ingredients. Bottle and keep in a cool place. One cup of this mixture in two quarts of water will be sufficient for ordinary use. Now lay the goods on an old sheet, and iren rapidly and lightly on the wrong side, and then roll tightly on a curtain pole or any round piece of wood. If this is carefully done you do away with the creases made by folding. For black silk or cloth dissolve one tablespoonful of borax and one tablespoonful of indigo in one pint of warm water. Sponge the pieces well and lay smoothly one above the other, and, if possible, put in the sun to dry.—Ladies' Home Journal.

An Electric Alarm Clock.

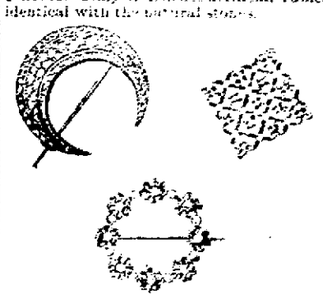
An ordinary clock is electrically connected with a small bell, which, when it once starts off, does not stop ringing until the circuit is broken. As this can only be accomplished by one's getting out of bed, the chance for the apparatus to accomplish its task is a very excellent. A great advantage this invention possesses over the common alarm clock is that the alarm does not require any winding to set it, but is always ready to perform its work at the appointed hour.—Boston Transcript.

SCIENCE AND PROGRESS.

SUBJECTS OF INTEREST TO MEN AND WOMEN WHO THINK.

The Artificial Production of Rubies, Similar in Color and Chemical Composition to the Natural Stones, by the French Chemists MM. Fremy and Verneuil.

MM Fremy and Verne, the French chemists who since last June have been artificially producing rubies, have, according to La Nature, finally submitted to the Paris Academy of Science artificial rubies identical with the natural stones.

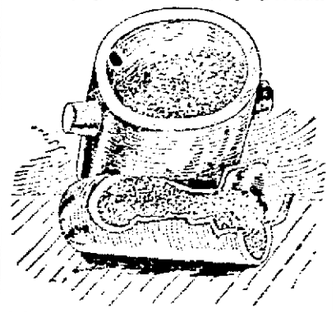


ARTIFICIAL RUBIES SET IN JEWELRY.

The natural ruby is simply crystallized corundum, or oxide of aluminum, with a trace of coloring matter, probably chromium. The rubies originally produced by the French chemists, explains Popular Science News, were made by heating to redness ordinary alumina containing a little bichromate of potash, with certain fluorides, particularly fluoride of barium.

The only difference in their latest mode of procedure is that the mixture is rendered alkaline with potassium bicarbonate, and the mingling of the components purposely left imperfect so that the combination should take place between the volatilized elements, and the crystals could grow by "feeding," as is done with crystals by the wet process. Another difference is in the manipulation. Instead of using a gas furnace, they were enabled to keep large crucibles constantly heated for one week at a temperature of 2,000 degs. Fahrenheit. In this manner batches of six pounds were obtained out of ten pound charges.

After the process is completed the rubies are found adhering to the sides of the crucible (Fig. 2) in a crust of gangue nearly one inch thick, from which they can be readily removed by simply rubbing. The largest rubies thus far obtained weigh about one and a quarter grains, or one-third of a carat. Their crystalline form, hardness and physical characteristics were in every way identical with the natural stones.



RUBIES ADHERING TO SIDES OF CRUCIBLE.

As is well known, the sapphire is chemically the same stone as the ruby, only differing from it by its brilliant blue tint, which has heretofore been supposed to be due to a trace of cobalt, copper or some other metallic oxide giving that color.

It was found, however, in these experiments that blue rubies or sapphires were produced in the same crucible as the red ones, although in much smaller numbers; and in one case a crystal was red on one side and blue on the other. It is thus probable that the ruby and sapphire both owe their brilliant colors to the same metals—possibly chromium in different stages of oxidation.

Improving Jointing of Iron Surfaces.

The Boston Journal of Commerce states that it is found that a permanent and satisfactory joint can be effected between rough cast iron surfaces by the use of mineral asbestos mixed with sufficient white lead to make a very stiff putty. This will resist any amount of heat, and is so unaffected by steam or water as to be serviceable for mending or closing cracks in cast iron retorts employed in the distillation of oil and gas from cannel coal. The heat being applied to the bottom of the retorts and the temperature of the iron maintained at a bright red heat after a time the bottom of the retort would give way, the larger portion of the crack being downward toward the fire.

The method employed was to prepare the mixture and place it on top of a brick, then put the brick on a bar of iron or a shovel, and press the cement upward to fill the crack in the iron, holding it up for some time until it had penetrated the cavity and become somewhat set—necessarily, during this operation, the lid being removed from the retort so that no pressure of gas or oil should force the cement outward until set. The use of asbestos in this way possesses various advantages, not the least of which is that the substance cannot burn.

How to Remedy Swaying and Oscillation.

Frequently the oscillations of the main belt in a mill come in unison with the beat of the engine, and a pretty perceptible slapping about of the belt is noticeable, says The Artisan. The beat of an engine will often come in sympathy with the rhythmic sway of the building, and so increase it as to be very perceptible. If this were continually going on, in exact time, it would become so great in time as to be dangerous; but one or the other gets ahead and mixes the movement, so that it gradually ceases until they are again in unison. If the speed of the engine is changed in either case the swaying will be kept mixed all the time instead of occasionally, as long lines of shafting this will appear also. The pull on the belt at the beginning of the stroke being in unison with the spring of the shaft, this causing a marked oscillation. The same remedy is applied here, to mix the two movements purposely, as if the trouble is partly removed, if not entirely.

Advancing Glaciers.

According to the latest observations which Dr. Finsterwalder has published, as stated in The Scottish Geographical Magazine, the region occupied by advancing glaciers is extending from west to east, and has lately crossed the limits of the eastern Alps. The glaciers in this region have been receding during the last thirty years, but now there is undeniable proof that those of the Ortler group, at any rate, are in a state of progression.

ALL AROUND THE HOUSE.

Articles Useful and Decorative—The Newest Quilts, Curtains, Tea Cloths, Etc.

There is a fashion now of having chints or printed satin quilts for throwing over the bed, the patterns being a revival of those of Queen Anne's time, and very quaint and pretty. They are made with a deep bordering of lace. Fine old lace is turned to this purpose, and linen embroidered all over in fantastic and conventional designs for the fashion of the season is rather for satin trimmed with lace.

In muslin curtains for the coming season the hem stitch will be considerably narrower, the styles changing in these goods as they do in handkerchiefs.

Five o'clock tea cloths are as elaborate as they can be. They are of the finest linen, ornamented with exquisite stitchery, and the edges are drawn into lacelike patterns and bordered with costly lace. The embroidery is sometimes done in pale blue or pink. The newest and daintiest mixture, however, is white and gold.

A hand-some rot cover recently seen was of white woolen cloth embroidered with field flowers—forget-me-nots, daisies and the like—and bordered with ball fringe.

A pretty pin cushion of flowered white satin is of a large square shape. It is furnished with two full pockets for holding trinkets or buttons, and on the other sides are laid, in half handkerchief shape, folds of white velvet, through which are run the button hook, scissors, or any little article needed for the toilet.

An Egg-cellent Layout.

Perfection Eggs—Over a skillet of hot water place a pie pan whose edges will rest on its outer edges without letting any water into the pan. Let a small piece of butter melt in the pie pan, into which break six eggs; cover closely; let them steam till tender, season, and pour over one-half cupful of cream. After a minute slip unbroken on to a round platter.

Shirred Eggs—Butter earthen saucers; break into each two or three eggs, set them into a bake pan in a hot oven; season when done and serve in the saucers.

Scrambled Eggs—One cupful of milk, one tablespoonful of butter, salt, pepper, beat ten eggs hard, let the milk come to a boil and add the eggs, stirring constantly.

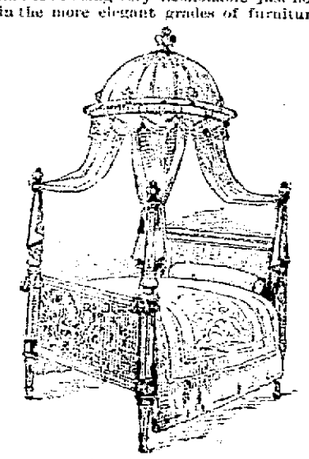
The Best Soft Boiled Eggs—Put the eggs in a saucepan, cover with boiling water and let them stand ten minutes where the water will keep hot but not boiling. To cook an egg soft it should never be cooked in boiling water; the white hardens before the heat has reached the yolk. The above recipes are selected from a seasonable collection in Good Housekeeping.

The Washing of Fine Lace.

The washers of nice lace form a class of labor quite by themselves, and few people have an idea of the amount of labor involved in the cleansing operation and of the skill and knowledge required. The upholsterer explains that the labor comes in chiefly in drying, for the washing is but a simple thing in comparison. A table is cushioned and covered closely with a spotless cloth, and on this the lace is stretched with an intricate care that is amazing. Through every mesh a pin is placed to hold it in place, and the whole pattern is thus pricked out till every leaf and sprig is firmly fastened, so that it cannot shrivel or contract, a whole day being sometimes used up in preparing a single yard of the lace, so that when dry it is lifted all soft and perfect and unimpaired in the design.

An Ornamental Piece of Furniture.

French styles of the period of Louis XV and XVI being very fashionable just now in the more elegant grades of furniture,



A LOUIS XVI BED.

an example, reproduced from The Decorator and Furnisher, is here given of a Louis XVI bed, recently exhibited in Paris. This highly decorative piece of furniture differs from many others of that period in being of very practical utility for regions where the mosquito abounds.

As shown in the cut, the four posts are fluted and carved and carry the hollowed ribs supporting the dome, and these ribs are completely hidden by the four looped curtains. The dome ribs, cornice, plumed ornaments, posts and rails are simply painted white. Every other part is upholstered with a light blue twill silk worked with a cream colored design of a vase and a lyre alternately, surrounded by roses and divided into diamond shapes by light flowing ribbons.

How to Mend Granite Wear.

The exact modus operandi is this: If the hole to be stopped is not large enough for the wire or rivet to be inserted it must be enlarged. This can be done with a file. Put the rivet through the hole from the inside of the kettle. If too long it can be cut off with a chisel or a pair of pincers. The rivet or wire should be long enough to go through the hole and come just beyond it. When inserted, place an iron under it, and pound down lightly with the hammer until it is "riveted." It is no hard matter, and the mending really takes less time than it has taken me to describe the method.

"I supposed," says the correspondent of The Housekeepers' Weekly, who recommends the foregoing, "that the pounding down would be heroic, but I was surprised to find how lightly this could be done."

Household Hints.

A highly recommended plan for toughening the glass of lamp chimneys is to place them not cold water, heat the water slowly to boiling point and then let them cool very slowly. Those who have tried it testify that their chimneys thus toughened can be used for months.

A scorch can sometimes be removed from a varnished carpet by spreading the spot thickly with French chalk, covering this with brown paper and pressing with a warm iron.

The direct rays of the sun should never strike a mirror. The action of the rays on the quicksilver will ruin any mirror in a comparatively short time.

DRESS AND FASHION.

STYLES THAT ARE APPROVED AT HOME AND ABROAD.

Gowns for Full Dress Occasions—Low Bodices That Are Brought Up High on the Shoulders to Suit the Requirements of Slender Figures.

The permission to wear high or semi-high bodices at the queen's drawing rooms has had an influence among English women, as is shown by the fact that low bodices for ordinary evening wear are brought a little higher up on the shoulder when the figure needs it. This is a fashion which many American women will find both becoming and convenient, as even without a perfect figure they may wear, when occasion requires it, a low bodice without unduly exposing lack of plumpness and fairness. In the cut here presented is shown an exceedingly attractive French ball gown, with low bodice brought well up on the shoulders.

A FRENCH BALL GOWN.

The bodice and round skirt are in white gauze over a foundation of pink satin. It is strewn with almond shaped spots in velvet. The shoulder knots, bows, braces, etc., are in pink velvet. Corresponding with these are the circular rows of velvet around the bottom of the skirt, also the fly bows that loop up the festoons heading the rows. Empire fashions still prevail in full dress toilets, and it is told that the dressmaking of that particular period will continue to be adopted by debutantes. Princess dresses, with the train and bodice in one, are fashionable. Some bodices are pointed back and front. Some end at the waist, where they are trimmed with lace or flowers.

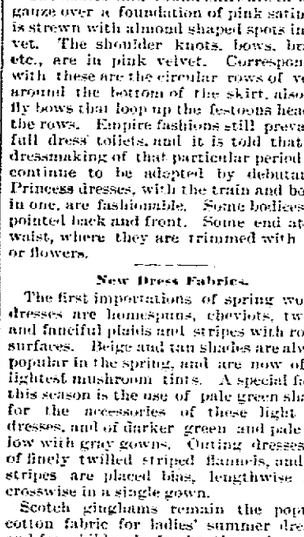
New Dress Fabrics.

The first importations of spring woolen dresses are homespuns, cheviots, tweeds and fanciful plaids and stripes with rough surfaces. Beige and tan shades are always popular in the spring, and are now of the lightest mushroom tints. A special fancy this season is the use of pale green shades for the accessories of these light tan dresses, and of darker green and pale yellow with gray gowns. Outing dresses are of finely twilled striped flannels, and the stripes are placed bias, lengthwise and crosswise in a single gown.

Scotch ginghams remain the popular cotton fabric for ladies' summer dresses and for children's frocks throughout the year. They are brought out this year in the very light colors that will be seen in all new fabrics, the special novelty being copies of Louis Quinze brocades in chine, stripes of flowers and vines on white grounds alternating with solid stripes of pale rose, sky blue, mauve, gray or green. Flowered batistes with lace stripes are pretty summer fabrics, thinner and softer than ginghams, and with more "body" than lawns. Percalesare revived. Sateens have a duller luster than formerly, and the cotton cheviots are of better quality than were last season's.—Harper's Bazar.

Latest Novelty of the Season.

It is becoming more and more the mode to wear bodices dissimilar to the skirt; we therefore take pleasure in giving our readers the very latest novelty in way of a bodice.



SILK BLOUSE WITH LACE YOKE AND SLEEVES

It is a surah silk blouse with fancy chiffon or lace yoke and sleeves. The yoke and sleeves are finished with pearl trimming. This blouse may of course be made in all silk and in any color that suits the taste of the wearer.

Fashion Echoes.

Tea gowns are more like dresses every day. They are all fashioned on the lines of the princesse robe.

Quite the newest fads are of shaded gold colored rings de Chine, decorated with searabs in relief.

The present mode is entirely a revival of many of the fashions of past centuries.

Fashion seems loath to prescribe bustles for some time to come. The long, plain, sinuous skirts form pads behind continue as popular as ever.

Getting Off Cheap.

If It Had Been Any Worse It Might Have Been a Case.

As the train going down from Charleston to Savannah ran in on a siding to wait for the up train to pass, we saw a large alligator in a pond on the other side of the fence. This pond had been made by a cut in the railroad bed, and was about a quarter long by 60 wide. On the opposite side and not twenty feet from the water, was a negro cabin, and a negro stood in the open door looking at the train. All at once he leaped to the ground, pulled his pockets out and began firing at the alligator. He was but by two or three rounds at once and down he went out of sight. As he disappeared the negro came running down to us, hat in hand, and pointing to a hole made in the head gear by a glancing bullet he exclaimed:

"Now den, wear is dat white man who shot dat bullet?"

No one could say, as we had all been firing, but one of the shooters finally stepped forward and said:

"See here, Moses, it was an accident, and though it was a close shave you have not been hurt."

"But I've got a chill, sah! When dat bullet went 'pinging' from my ole hat I fought I was done sent for and killed dead, an' it's brung de sugar back on me."

"Well, how much damages do you claim?"

"Fo' bits, sah—fo' bits an' not a cent less. I don't want to rob nobody, but dat bullet might her went right frew my head."

We raised the half dollar and handed it over, and as Moses dropped it into his pocket and turned away he continued:

"Doan' feel hard, gem'len, but I owes a duty to my family. If dat bullet had killed me de ole woman would her stuck out for two big dollars, shuh if it broke de hull crowd."—Detroit Free Press.

Never Phased Him.

Mr. Billy Smith is a well known character in the dry goods trade. He is a royal good fellow, spends money freely and never tries to get ahead of any one except a railroad company. He will travel on scalpers' tickets. Not long ago he bought a ticket from Cincinnati to New Orleans which had the name of William Hill on it. The conductor on the train first collected all the tickets from the passengers in the Pullman car, and later came through asking the passengers their names. When he reached Mr. Smith's section he said, "What is your name?" "William Hill," promptly replied Smith.

The conductor eyed him suspiciously but passed on, handing him a large line of tickets. The next morning Mr. Smith was performing his ablutions. His wife had previously made him a handsome sponge bag, on the outside of which were embroidered the initials W. H. S., and the bag was lying on the washstand when the conductor came in. He looked at Billy, then at the bag. Then he said quickly: "You told me your name was William Hill, to correspond with your ticket. What do those initials 'W. H. S.' mean?" Quicker than a flash Billy replied, "You blamed fool, those initials stand for William Hill's sponge."—Clothier and Furnisher.

His Raise.

A drama had been having a successful run, when one morning a "super" presented himself to the manager with the following complaint:

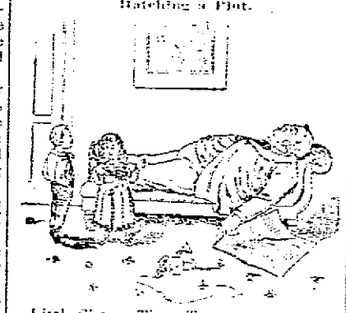
"Sir," he said, "I have been playing my part now for a hundred consecutive nights with the utmost zeal and care. Can't you manage to give me a rise?"

"What part do you play?" asked the manager.

"I am in the fourth act. I have to stake £20 in the gambling scene."

"Your claim is very fair," returned the manager. "From tomorrow you shall stake £40."—London Tit-Bits.

Hatching a Plot.



Little Sister—Thay, Tommy, you go and git tarvin' knife and let's see what kind of sawdust Uncle Jack is stuffed with.—Talisman.

Chollie's Mistake.

"They say Chollie's infirdes were the result of a practical joke."

"Yes. The fellows told him that a big burly fellow was deaf and dumb, and Chollie walked over to him and with a sweet smile told him he was a fool."

"Well?"

"The man wa-n't deaf and dumb."—London Tit-Bits.

Keeping It Dark.

"Better have your mustache dyed again, sir," said the barber. "The red's beginning to show, and people can see the real color."

"Of course," answered the victim, "and if there's anything I want it's to keep it dark."—Philadelphia Times.

He Stood Alone.

George—I find it very hard, Ethel, to respect your father's opinions, they differ so from the rest of the world.

Ethel—In that respect—

George—In regard to loving a lover.—Life.

The Reason Why.

Is Life Worth Living?

Not if you go through the world dyspeptic. Dr. Acker's Dyspepsia Tablets are a positive cure for the worst forms of Dyspepsia, Indigestion, Flatulency and Constipation. Guaranteed and sold by H. C. Heberman & Co., and W. H. Peck.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered." Peculiar in its "good name at home,"—there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly.

Hood's Sarsaparilla is Peculiar to Itself

Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

CARTER'S LITTLE LIVER PILLS.

CURE

Also Headache and relieve all the troubles incident from a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

GET WELL—STAY WELL

If you are sick, if you MAY, consult by letter, free of charge, Dr. Sage's Catarrh Remedy, the only remedy guaranteed to cure in every case, no matter what your symptoms are, or how many doctors and medicines have failed. Address

OUR NEW BOOK on Catarrh, its Cause and Cure sent free. Address WORLD'S DISPENSARY MEDICAL ASSOCIATION, ERIE MEDICAL CO., Buffalo, N. Y.

A HAPPY MAN

TO WEAK MEN

Suffering from the effects of youthful errors, early decay, wasting weakness, lost manhood, etc., I will send a valuable treatise (sealed) containing full particulars for home cure, FREE of charge. A splendid medical work; should be read by every man who is nervous and debilitated. Address

Prof. F. C. FOWLER, Moodus, Conn.

MY business year ends March 31st, and it is of the Highest Importance that All Persons indebted to me Should Settle before that time, so that I may know whether to continue in business or go elsewhere This Notice Is For All who owe me and not for another fellow. I shall esteem it a favor if any person has an account against me to present it at once.

S. E. D'WOLFE.

A PERMANENT SUCCESS

Must have positive merit Then try a pair of

STOLL'S SOLID, SERVICEABLE SHOES,

—AT—

J. H. STOLL'S,

South Main St., Sign of Big Red Boot

FOR RENT—House of seven rooms on Silver street, two doors west of Oak street. Inquire of Mrs. H. E. Barclay, 564 East South street. 99 f

FOR RENT—Dwelling house on north side West street, seven rooms, cellar and cistern; convenient; $12 per month. Inquire of Jacob Baich, 370 E. Hackenburg avenue. 99 f

H. M. Ault was at Prospect to lay.

John T. Merchant is quite sick at his East Marion home.

E. Cole, of Bellefontaine, is the guest of friends in the city.

Col. James Jacoby is home for a few days, visiting with his family.

E. A. Curley left this morning for Cleveland on business matters.

Charles Fenton was here from Mansfield Monday, looking after business matters.

Mrs. D. W. Kesler has returned to her home here, after a two months' visit at Ashland, O.

A ten-pound boy was born to Mr. and Mrs. Milo Lewis, in North Marion, this morning.

The C., H. V. and T. has placed a bulletin board in the people's waiting room at this point.

Mrs. Rev. H. Sutter and children, of Bellevue, O., are guests of Mrs. Rathardt, on E. Hackenburg avenue.

Mayor Carnegney, of Prospect, was in the city today. Mr. Carpenter and Mayor Hahn, of Caledonia, were the lonesome couple of officials in town only.

R. C. Ackerman has a violin that was manufactured in Italy in 1721, making it 170 years old. The pattern of the instrument is of nearly the same make as those manufactured now.

Frank Dart, the all-around pedestrian who jumped his bond of $100, is being searched for vigorously. The last information received of him was that he had visited an uncle at Marlboro, O., and left with the suspicion of having taken with him a watch belonging to that relative.

Rev. Father Burns gave a brief lecture this morning to his congregation on the life of St. Patrick. There was no special observation of the day here. There were many green badges worn, however, and the shamrock, received from friends on the Emerald Isle, was worn enthusiastically in memory of the patron saint.

J. B. Permint, of Massillon, O., has completed plans for the proposed new Catholic church in this city, which have been accepted. The cost of the new structure will reach about $40,000, and will be a handsome edifice. The church will be erected between the school house and parsonage. It is expected to build during the coming summer, at least that is the hope of the members of the church at this time.

Messrs. Putnam and Getty, of Hicksville, O., manufacturers of the Getty road cart and wagon, were in the city today, looking over the city and consulting with citizens in regard to locating here. The gentlemen have heard of Marion as a good city, and came to look over the town. They want to increase their capital stock and manufacturing capacity so as to meet the demands of a growing trade, and would ask stock subscriptions as an inducement to locate here.

Board of Trade Meeting

There will be a meeting of the members of the Board of Trade at City Hall this evening, March 15, at 7:30 o'clock, for the purpose of hearing the report of the committee appointed to confer with the Marion Manufacturing Company, and to take such action thereon as may be deemed best. A full attendance is desired.

J. F. McNEAL, President.

TO PRESERVE THE SABBATH.

The Marion County Sabbath Conference. The Permanent Organization.

The meetings of this conference began on Sunday afternoon with a large attendance in Music Hall.

Good music was rendered by a double quartet from the M. E. and Presbyterian choirs, with a solo by Mrs. McNeal. Miss Iva Fish acting as accompanist.

The principal feature of the afternoon meeting was the able and eloquent address of Rev. E. D. Whitlock, of Delaware. The doctor spoke for more than an hour and held the closest attention of the audience to the close.

The union services at the Presbyterian, Free Baptist and Christian churches on Sunday evening served to increase the enthusiasm already awakened in the subject of the better observance of the christian Sabbath.

The result of the Sunday meetings was visible in the interest manifested at the Free Baptist church on Monday. Two good audiences gathered in the afternoon and evening to enjoy the excellent program which had been prepared, and which was carried out with a few exceptions occasioned by the inability of speakers to be present. Great interest was manifested in the papers and addresses which had been prepared, and the general discussion was a feature which added greatly to the effectiveness of the program.

Rev. Oman Lawrence, of Columbus, field secretary Ohio Sabbath Association, and Rev. W. Palmer, of Delaware, assistant field secretary, were the guiding spirits of the conference, and rendered efficient service at all stages of the work.

A permanent organization was effected Monday evening under the title of the Marion County Sabbath Association, Auxiliary to the Ohio Sabbath Association.

The following officers were chosen: Presidents—Rev. J. R. Downer, Rev. R. Wallace, Rev. A. Crabtree, of LaRue. Vice Presidents—Rev. H. C. Martindale, of Caledonia, Rev. J. H. Julian, of Prospect; recording secretary, Ira Uhler; corresponding secretary, Rev. W. P. Hale; treasurer, Rev. W. E. Thomas.

The above named officers, together with the following five persons, constitute the executive committee, viz.: T. J. Magruder, J. Landon, J. C. Markert, J. R. Harshberger and Rev. L. P. Gross.

The object of the American Sabbath Union and its state and county auxiliaries is to "preserve the christian Sabbath as a day of rest and worship."

IN THE SWIM.

A Recherche Affair Monday Night at J. J. Hane's.

The handsome and capacious residence of J. J. Hane was Monday night the scene of one of the most elegant social affairs of the season, being the occasion of the entertainment by the youngest daughter of that household, Miss Nellie Hane, of a large number of her young and beautiful lady friends. The house was beautifully decorated with flowers and flooded with light the conservatories furnishing ornamentation for parlors, dining halls and reception rooms. The charming young hostess received in a manner both cordial and gracefully dignified the gay throng of society debutantes, and by her sweet smile immediately placed all on familiar terms. Expectation and anticipated an evening of unalloyed pleasure, and well was it justified, as merry yet dignified sports succeeded each other throughout the evening, causing hearty laughter to echo through the rooms. Nothing was lacking, nothing could have been added. When the dining march filled the refreshment rooms and circled around the burdened tables, the handsome costumes of the lovely guests, surmounted by their smiling faces, forming a background well fitted to the wealth of flowering plants in the center, made a scene of paradisical beauty and loveliness. The courses served were sumptuous and complete. Everything that a chef could originate was placed before the guests in profusion. Among those whose shining faces were seen peeping through the flowers were Misses Harding, Lindsley, Jo Harshberger, Roberts, VanDeMark, Fairfield, Mell. Smith, Cunningham, Helen Louise Davis, Schultz, Uhler, Foye, Christian, Pearl McWilliams and Griselda Davis. H. G. Brown was also one of the favored guests. At the hour "twixt night and morn", the merry party bade the household good night, having decided that Miss Nellie had proven herself to be the most charming of hostesses. The evening will long linger as a pleasant memory. ***

ALL AT SEA.

That Appears To Be the Situation Regarding the Local Spring Campaign.

Notwithstanding that but three weeks remain until the spring election, there appears to be no definite opinions among local politicians in regard to candidates. Prominent democrats appear to have no idea as to who the real candidates for nomination are. There are rumored to be several after the nomination, but so far there have been no announcements. About an equal number are apparently seeking the office of marshal. As to councilmen, it is thought that but about three, or at most four, members of the present council will be renominated for that position, because the others will not serve again. The new announcements have not come to the surface as yet. The delay is caused by a caucus called for good timber, which is a commodity.

The caucuses will be put off until the last moment as usual, but it is likely several candidates will begin to develop within a few days.

RAILROAD BREVITIES.

The citizens of Tacoma have guaranteed $100,000 for Union Pacific railroad terminals at that point.

There is a railroad in Georgia 300 miles in length which has been in operation since 1845, and never killed a passenger.

It is said that thirty-four railroads have signed the agreement to discontinue the payment of commissions on the sales of tickets.

Fruit cars can be started from Palatka, Fla., and reach Nashville, Tenn., a distance of 682 miles, in forty-eight hours. This, it is claimed, is the fastest freight time on record.

The Baldwin Locomotive works during the year 1891 built 903 new locomotives besides doing a good deal of repairing. The Schenectady Locomotive works built 357 machines during the same year.

The Youngstown, the private car of General Manager Patton, of the Pittsburg and Western, was burned at Pittsburg recently. The porter built a fire in the stove preparatory to a trip, and a half hour later the whole interior was in flames. Loss, $12,000.

A branch of the Railroad Men's Christian association has been organized at Pueblo, the railroads furnishing a fine room and a library. John Brunton, formerly with the Bee line at Indianapolis, has been appointed superintendent and librarian.

The Indiana supreme court has decided in a case affecting the Pennsylvania company that where the wrong coupon on a return ticket is taken by the conductor in the first case, the passenger cannot be ejected for having the wrong coupon for the return.

Through sleeping cars do not run between northern points and Florida. The reason is that if the practice was once commenced each northern line might want one, and the southern connections would be swamped with a concentration of palace cars beyond the capacity of their engines to pull.

Mr. F. W. Connors, now a conductor on the Susquehanna division of the Erie, claims that in the twelve years spent as a brakeman he made the biggest time ever put in by one man employed by the Erie. Here are his figures: 1873, 408 days; 1874, 330; 1875, 434; 1876, 377; 1877, 388; 1878, 312½; 1879, 385 5-6; 1880, 420½; 1881, 447½; 1882, 446½; 1883, 373; 1885, 377.

NOVELTIES IN JEWELRY.

The minature is being employed to ornament cuff buttons and bracelet clasps.

A book mark is in the form of a mason's trowel, of silver, with an ivory handle.

A handsome shoe horn is made of ivory and has a heavy silver handle, elaborately chased.

A massive silver girdle is designed to represent a heavy rope. At one end is a large silver hook, and at the other an eyelet with the rope apparently spliced and bound with a cord.

Silver brooches and vinaigrettes decorated in enamel are now shown. The shapes are generally plain, and in no wise odd or striking, but the enameled designs are very pretty and sometimes even elaborate.

A novel design for a pocket corkscrew appeared in a jeweler's window lately. When closed the instrument presented the appearance of a crab's claw, which opened on both sides, disclosing the essential part of the article.

A novelty in cane heads has just been produced by a New York jeweler. It is a perfectly plain knob, which, on being opened, discloses the surface of a half dollar. The coin, however, is only the outer cover of a series of leaves on which photographs may be placed. There are spaces for eight portraits.

The Bernhardt brooch is one of the latest pieces of fancy jewelry placed on the market. It is shown in several styles. One is of silver about the size of a half dollar, with a bas-relief of Joan of Arc arrayed in full armor with a banner in her hand. It is set in a frame of pale blue enamel and small diamonds.—Jewelers' Monthly.

THEATRICAL CHAT.

Wilhelmina, daughter of Alice Dunning Lingard, recently made her debut in London.

Levy, the well known cornetist, is organizing a military band for the road.

Sol Smith Russell is to personate a famous American in a new comedy next season.

It is said that Mr. Edward Harrigan will make enough out of "Reilly and the 400" to pay for his new theatre.

A traveling company of actors is said to have posted the following notice: "On account of the want of a handkerchief 'The Robbers' will be given to-night instead of 'Othello.'"

The benefit to Annie Russell in New York netted nearly $3,000. Miss Russell is still in a very critical condition at Lakewood, N. J.

It is said that it costs D'Oyly Carte £320 to raise the curtain upon a performance of Sir Arthur Sullivan's "Ivanhoe."

Barry and Fay will give "A Scandal in High Life," the new play which Edgar Selden is writing for them, a magnificent production next season.

Lydia Thompson recalls, in an interview, the fact that Henry Irving played the part of her wife in the burlesque "Paris," and she adds, "He was awfully funny, too."

Mme. Bernhardt's new play, which she intends to produce in this country, is called "La Dame de Challant," and was written by the Italian poet, Giuseppe Giacosa.

WELL PAID SHEPHERDS.

Cardinal Simor, the primate of Hungary, enjoys a revenue of $90,000 a year.

The revenue of the archbishop of Prague amount each year to the sum of $35,000.

The archbishop of Erlau, in Hungary, has a yearly revenue which amounts to about $75,000.

The prince-bishop of Cracow, in Austrian Galicia, receives in revenues each year the sum of $200,000.

The archbishop of Olmutz, a Moravian city, receives revenues which amount to nearly $25,000 a year.

The prince bishop of Salzburg, capital of the duchy of the same name in Austria, has a revenue of $175,000 per annum.

The bishop of Linz, which is the capital of Upper Austria, draws from his revenues as a prince-bishop equal to about $125,000.

The archbishop of Vienna has no landed property attached to his see, and thus derives all his revenues from rentals. He receives $30,000 a year. His stipend is only $5,000 a year.

ACTORS OFF THE STAGE.

Lawrence Barrett is a scholar who finds relaxation from his professional duties in his library or study.

Tom Whiffen, of Rose Coghlan's company, is an expert violinist in addition to his histrionic ability.

Forrest Robinson is a fire sharp, and if he had his own way he would be an associate member of Boston's fire department.

Edgar Davenport is a bicycle fiend, and he gets all the fun that he cares for riding a wheel, either alone or a tandem with a friend.

Eben Plympton is a gentleman farmer, and when he isn't at work he spends his time of rest and recreation in the little town of Plympton.

Nat Goodwin's closest friend, probably, is Ed Stokes, of New York. Nat's chiefest delight in this world is to witness a scientific set-to between good fighters.

Frank Wilson has acquired a substantial reputation as a linguist. He is proficient in four languages, and he still occupies a good deal of time in linguistic study.

Edwin Booth spends all his leisure time in his room alone. He never goes on the street or into society if he can possibly help it. His only companion is a big black pipe.

George Wilson, of the Boston museum, when he can get away from professional labors, gets down to Kittery, Me., where he spends the hot days fishing off Newcastle bridge.

Henry E. Dixey has learned all the tricks that the professional prestidigitateurs could teach him, and he has gone farther and studied for himself the philosophy of the magician's art.

The late Dan McGuinnis was an absolute crank on matters of mechanical interest. He would walk five miles to see something new in the line of machinery. When he was a lad he served his term as an office boy in a machinist firm.

Mr. Richard Mansfield has devoted himself to study of a superior order, and he can lay claim to more accomplishments than anybody who had seen him simply in the work of his profession on the stage would be likely to attribute to him.

Joseph Jefferson is not only an admirable actor, but he is a painter of much more than ordinary skill and power. The work that he has performed in either department would have been sufficient to have secured for him more than common reputation.

Denman Thompson recreates at Swanzea, N. H., the scene of both his plays. When he is there he simply enjoys himself. He has built a church there, and has a mortgage on everything mortgageable in the town, for everybody "touches" Denman.

George Fortescue likes to loaf at Winthrop in his cottage there when he hasn't anything to do. He has one overwhelming ambition, and that is to rock in a big easy chair all day on the shady piazza of his cottage. He is very fond of sea bathing.

CRISP CONDENSATIONS.

There are still 114 log school houses in Illinois.

There is no directory in the city of St. Petersburg.

Uncle Sam owns 637,000,000 gold coins, of which only 411,000,000 are in circulation.

There are more than two hundred women in the United States who preach the gospel.

Seven hundred million oranges are exported every year from Europe to this country.

Custer county, Mon., is the largest county in the United States. It contains 36,000 square miles.

In the hair shops of London combings are disentangled and mounted at the rate of twenty-five cents per ounce.

As an instance of the wonderful fecundity of vegetable life, it is stated that a single tobacco plant will produce 360,000 seeds.

A rich layer of sulphur has been found in the middle of the caravan road between Askhabad and Khiva, in central Asia, in the steppes of Karakul.

An Irishman, who speaks five living languages and two dead ones, and knows history from Adam's time up, is a hustler in a St. Louis street car barn.

At Munich there is a hospital which is entirely supported by the sale of old steel pennies collected from all parts of Germany. They are made into watch springs, knives and razors.

The law of evolution works in language as well as in other things. Twenty thousand words have been added to the English language in the department of biology alone since Darwin's discoveries.

A St. Joseph, Mo., weather prophet says that from May 1, 1891, to May 1, 1892, will be an era of general destruction throughout the United States. Earthquakes and volcanoes all over the world will be very active.

ELECTRIC SPARKS.

Berlin has refused to grant any franchises for electric street railways.

Boston's electrical exchange and insurance men are at loggerheads over the licensing of electricians.

All Germany has 53,000 telephones; 15,000 of them, or as many as the total number in France, are in Berlin.

The Lenawee County (Mich.) Farmers' Telegraph line now connects 121 homes with sixty-eight miles of wire.

It is authoritatively stated that the electrical underground railway in London has proved that a speed of twenty-four miles an hour is practicable.

The Greenwich (England) authorities have found that the exact period of transmitting an electric signal to Montreal is about three-fourths of a second.

An electric street railway car can be heated by the expenditure of one horse power of electrical energy. There is no dust, no cinders and no room is taken from the seating accommodations.

It has been decided by the World's fair authorities to locate the general electrical building at Jackson park. The structure, in accordance with the present plans, will be 750 feet long by 350 feet wide.

Japan has over 11,000 electric lights. The Tokio Electric Light company has four stations, with a capacity for supplying nearly that number of lamps, while there are other large plants at Kioto, Kobe, Asaka and Nagoza.

A kind of moth or butterfly is said to have become so very troublesome and destructive in Bavaria that every possible means has been taken to destroy it. The most effective method consists of attracting the pest by means of an electric light in connection with a blow fan, which draws the insects into the suction pipe by air draught and results in millions of them being destroyed.

Something New About Carpets!

Do You Need—Are you going to buy any Carpets this season?
Do You Want to select from an assortment such as can be seen only in large cities?
Do You Want the latest and choicest styles?
Do You Want nice clean goods, fresh from the looms?
Do You Want your Carpet cut without waste?
Do You Want your Carpet sewed ready to lay?
Do You Want any kind of Brussels, Velvets, Wilton Velvets, Moquettes, in the choicest designs, made up with Beautiful Match Borders, in first-class style?

AND ABOVE ALL

Do You Want to pay less than you have been paying elsewhere for old goods carried in stock from year to year?

THEN COME TO SEE US!

Our plan of selling Carpets enables us to offer all these advantages and give you better value for your dollar than any other house here has ever been able to do. Cutting All Carpets Without Waste saves you several dollars on each carpet. You have the advantage of city assortment, city prices, city styles, city (that is expert) workmanship in sewing and bordering. We guarantee satisfaction. Prompt service is one of our distinguished features. No shelf-worn stock; no time-worn styles; no soiled goods or job-lots! Sorry we are short of space—but come to see us and we will explain fully why we can undersell competitors and yet give you better value.

Balloting for United States Senator.

SACRAMENTO, Cal., March 17.—Yesterday's ballot for United States senator resulted: Estee, 27; DeYoung, 24; Felton, 14; Blanchard, 12; Perkins, 1; Wetmore, 1. This is a net gain of three for Estee. The gain of one for DeYoung and one for Felton is only apparent, being due to increased attendance. The twenty-two Democrats present voted for John P. Irish.

New beginners in equestrianism realize the painful meaning of saddlery hard wear.—Texas Siftings.

A Mystery Explained.

The papers contain frequent notices of rich, pretty and educated girls eloping with negroes, tramps and coachmen. The well-known specialist, Dr. Franklin Miles, says all such girls are more or less hysterical, nervous, very impulsive, unbalanced; usually subject to headache, neuralgia, sleeplessness, immoderate crying or laughing. These show a weak nervous system for which there is no remedy equal to Restorative Nervine. Trial bottles and a fine book, containing many marvelous cures, free at Denison & Co.'s, and Huberman & Co.'s, who also sell, and guarantee Dr. Miles' celebrated New Heart Cure, the finest of heart tonics. Cures fluttering, short breath, etc.

Many people who believe in "business before pleasure," still seem to take pleasure in other folks' business.—Utica Herald.

Our Very Best People

Confirm our statement when we say that Dr. Acker's English Remedy is in every way superior to any and all other preparations for Throat and Lungs. In Whooping Cough and Croup, it is magic and relieves at once. We offer you a sample bottle free. Remember, this Remedy is sold on a positive guarantee. Sold by H. C. Huberman & Co. and W. B. Foye.

It is said that a Chinaman never goes crazy. There is no reason why he should. Mininery bills are unknown in the Flowery Kingdom.

Mr. James Lemont, of New Prairie wek, Illinois, says: "I was badly afflicted with rheumatism in the hips and legs when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right today and would insist on every one who is afflicted with that terrible disease, to use Chamberlain's Pain Balm and get well at once." For sale at Flecker's drug store.

Woman can't throw a stone straight to save her soul, but she can get in an easy chair and open up a row so that he will go and throw it for her.—Somerville Journal.

Miles' Nerve and Liver Pills

Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery. Dr. Miles' Pain Pills cure biliousness, bad taste, torpid liver, piles, constipation. Unequaled for sick women, children. Smallest, mildest, surest. Fifty doses, 25 cents. Samples free at Denison & Co.'s and Huberman & Co.

WHY DO YOU COUGH?
Do you know that a little cough is a dangerous thing? Are you aware that it often fastens on the lungs and far too often runs into Consumption and ends in Death? People suffering from Asthma, Bronchitis, Pneumonia and Consumption will all tell you that
"IT STARTED WITH A COLD."
Can you afford to neglect it? Can you trifle with so serious a matter? Are you aware that
DR. ACKER'S ENGLISH REMEDY
for Coughs, Colds and Consumption is beyond question the greatest of all Modern Remedies? It will stop a Cough in one night. It will check a Cold in a day. It will prevent Croup, relieve Asthma and cure Consumption if taken in time, "You can't afford to be without it." A 25 cent bottle may save you $100 in Doctor's bills—may save your life! Ask your druggist for it, or write to W. H. HOOKER & Co., 40 West Broadway, New York, for book.
FOR SALE BY H. C. HOBERMAN & CO. and W. B. FOYE.

Remember, everything must be sold regardless of cost. The chance of a lifetime to buy dry goods cheap is at Frash's closing out sale.

D. F. Edwards was suddenly taken sick at the store Monday and had to be taken home. It is hoped that he may soon be able to resume his duties again.

About eight couple of young people gathered at the home of Miss Tavener Monday evening, and an enjoyable time was had. An elegant supper was served.

George Crossen, an employe at the C. and E. roundhouse, has been compelled to lay off for the past two weeks on account of sickness, but is now some better.

Mr. and Mrs. F. M. Pittenger have returned from their visit to Bellefontaine and Sidney friends. They will leave Thursday for their new home in Arkansas.

Mrs. T. J. Bishop has recovered enough from her recent illness to be able to leave for the country, where it is thought that she will more rapidly improve.

Harry Griffith was in the city a short time Tuesday evening. He has been laid up with the grip for about a week, but is able to get around and see his trade again.

Nick Her was over at Caledonia Monday billing the town for a two nights' stand of their popular attraction for Wednesday and Thursday nights. They play at Prospect Saturday night.

The county commissioners went to Prospect today, where they will consider the question of supplying an armory for the military company at that place. It is likely a hall will be rented for that place.

Delaware Gazette: The Norwalk and Western intends to use the C., H. V. and the T. and Chicago and Erie as its Chicago line from Columbus on the completion of the line connecting the Scioto Valley Division with the road proper.

E. E. Drown and wife came up from Agosta Monday evening and took Erie train 3 for Santa Cruz, California, where they will make their future home. Mr. Drown was quite well known over this county and has the well wishes of all his acquaintances in his new home.

Upper Sandusky Union: A couple of scholarly looking men have been canvassing Ohio towns with the alleged view of establishing night schools in mathematics. They collect a dollar in advance. The scholars have had an opportunity to do an example in subtraction, their pocketbooks being the subtrahend.

W. S. Baker, the man tried Monday for destruction of a tree on the land of Geo. W. Hill, was put in jail for a few minutes, but was released on the promise to clear up the wreck he had created and given a light fine. The son of Baker was proven guiltless of the charge on the ground that he was a minor and was working under the instructions of the father.

The engineering department of the C. H. V. and T. is engaged in raising all the curves on the Hocking Valley division so as to permit a speed of 45 miles an hour. To make the 45-mile-an hour curve the outer rail is being raised from a grade of 4 inches to one of 6 inches. This will enable the road to run faster trains on the spring schedule and to make special trips with safety at a much higher rate of speed than is now permitted by the slow curves.

Geo E. Lawrence will leave Wednesday of this week for Michigan, where he will enter upon his duties as national lecturer for the Farmers' Alliance. Mr. Lawrence was elected to this position at the Omaha convention, and his jurisdiction extends over all northern states. He also has charge of the educational department of the Alliance, and his time will be completely occupied with the duties of the office. He will make a tour of Michigan on this, his first trip out.

Cooper Post, No. 117.

Regular meeting of Cooper Post Wednesday evening. Post will be opened promptly at 7 30 o'clock, that all business may be transacted before 8 30 o'clock, the hour appointed for the debate. Members of the Woman's Relief Corps and Sons of Veterans are expected to be present at the debate.

JNO. B. KING, P. C.

AMUSEMENTS.

The Elks Will Repeat—The Gormans the Next Attraction.

B. P. O. ELKS.

The Elks have considered it feasible to repeat their benefit entertainment, and have fixed the date for next Tuesday night, March 24. It is possible some changes will be made in the program, but the most taking features will be retained. Many of them will bear repeating and still be enjoyable to those who witnessed the first performance, while a great many who were unable to be present will be pleased with the announcement of a repetition.

GORMANS' MINSTRELS.

The Zanesville Times Recorder has the following to say of the Gormans, to appear at Music Hall on Wednesday evening of this week:

As long as companies as good as that at the opera house last night give minstrel entertainments, so long will "burnt cork shows" be one of the most popular attractions that a theatre's management can offer its patrons. The Gormans company is gilt-edged throughout. The many departures from the beaten path of other minstrel performances are all changes for the better. There was not a feature on the program that did not meet with and merit prolonged applause. In an entertainment so uniformly good, it is hard to particularize; however, in a show that was characterized by having no weak points, special mention may be made of the novel "First part"—which, instead of the traditional semi-circle, brought the entire company in a unique arrangement "The Lorillard Reception"—in the course of which George Gorman in an original characterization "The Passing Young Coachman," brought down the house with his song, "The Pink of Perfection." George Brunton was given opportunity to display his superb tenor voice in the song, "Down on the Farm." The Gormans—John and James—provoked a continued roar with their humorous selections from daily newspapers and were followed by a spectacular idyl, "The Dancer's Dream"—a marvel of grace and beauty. The song and dance sketch, "Twilight in Dixie," elicited enthusiastic applause, as did also the contortionist, "Reto." The entertainment closed with "The Gambolliers," an amusing travesty on the Gondoliers of Sullivan & Gilbert. More cannot be said of the orchestra than that it was good enough for the rest of the show—the best minstrel entertainment that has visited Zanesville in years.

"OUR COUNTRY COUSIN" SATURDAY NIGHT

"Our Country Cousin" is the title of the new play written for Frank Jones, whose creation of "Si Perkins" brought him into great prominence. The author, Chas. Flemming, Esq., has admirably drawn from the rural life of West Virginia and has furnished a play rich with a combination of pathos and comedy, and teeming with dramatic interest from beginning to end. Much attention is given to the scenic exhibition, and in the third act a railroad scene is introduced with realistic and telling effect. The central character, Jason Wheatley, is an elaboration of "Si Perkins," a transported Yankee whom no one can help but become acquainted with on account of his many excellent qualities, and Mr. Jones depicts these qualities with rare fidelity to nature.

School Report.

Report of school in Sub District No. 12, Claridon township, for the term commencing Nov 24th, 1890, and ending March 13th, 1891. Number enrolled, boys 7, girls 4, total 11. Average monthly enrollment, boys 6, girls 4, total 10. Average daily attendance, boys 5, girls 3; total 8. Average per cent. of attendance 80. Number of months school was in session, 4; number of days, 80.

Following is the average standing of each of the pupils in the various branches of study pursued, with deportment included. Mary Martin, 70; Ida Fetter, 85; Imo Huggins, 95; Cora Linstedt, 85; Carl Huggins, 74; John Hursey, 81; Bennie Linstedt, 84; Merrick Haley, 88; Fred Linstedt, 79; Jacob Fetter, 85; Ames Plotner, 72. Mary Martin was absent 3 days. Merrick Haley 5 days and John Hursey was neither absent nor tardy.

The pupils were very enthusiastic in their work throughout the term and the results were very gratifying.

JOHN DERRY, Teacher

FATAL [illegible], Mass., March 17. One hundred and [illegible] operatives are running at the Cornell mill to-day. At the meeting of strikers last evening more than a committee was appointed to investigate the condition of the tumblers of the mill on a strike and report the names of those likely to need aid.

District Sunday School Convention.

The twenty-four district Sunday School Conventions of Ohio will hold district meetings all over the state on Tuesday and Wednesday, March 24th and 25th, under the auspices of the Ohio Sunday School Association.

The convention for the Ninth district, composed of Marion, Crawford, Hardin, Morrow and Wyandot counties, will be held at Kenton, on the dates above named. The convention opens Tuesday afternoon at 2 o'clock and continues Tuesday evening, followed by three sessions on Wednesday. It is hoped Marion county will be well represented.

Auction!

Having failed to get a room in Delaware, O., suitable for my business, I have decided to close out my entire stock of clocks, watches, jewelry, silver plated ware, etc., etc., at public auction. Now is your time to get bargains. Sale to begin Friday, March 20th, at 2 o'clock p. m., and continue day and evening until all is sold. Ladies especially invited. GRANVILLE RYDER, Jeweler, Sign of the big watch, north Main street, Marion, O. Colin Munro, of Cincinnati, O., auctioneer. to,thesat

Not a Man Sick.

ELMIRA, N. Y., March 17.—Ex-Governor Robinson is lying dangerously ill at his home in this city. He is in his 81st year. He has been prominent in state politics for forty years, having been assemblyman, comptroller, member of the constitutional commission and governor. Besides having held less important offices. He belonged to the Silden wing of the Democracy.

Representation Presented.

OTTAWA, Ont., March 17.—The government organ here this morning, speaking with authority says that Sir Charles Tupper will represent Canada at the approaching negotiations at Washington, while with him will be associated Sir William Whiteway on behalf of Newfoundland, and the Hon. Joseph Chamberlain as the representative of the British government.

Take Notice!

All persons indebted to Marion Cemetery for lot work, etc., are requested to call and settle before April 1st. You can pay Mr. Wilson at cemetery or at H. C. Hoberman & Co.'s drug store. These small bills must be paid or there will be no more work done on such lots until these bills are settled. 92-tf

Notice.

Henry A. DeWolfe is not now, nor has he been for years, authorized to contract debts on my account, and I will pay no bills of his contracting.
95tf] S. E. DEWOLFE.

Notice.

All our out standing book accounts must be settled at once either by cash or note. 98tf&wk. JOHN FRASH.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.
